Thanks Melody! I will follow up on this and get back to you. Is this the last condition for sign-off?

Christen

Subject: RE: Highlands - Lot 11 - 88 Cowpens (BLD2016-00159)

Hi All –

Quick follow up on 88 Cowpens drainage final signoffs –

Bob, went by last week as requested and the driveway looks good. All onsite inspection items complete. Overall drainage signoff pending below documentation:

1. ~~Confirmation of drainage inspection corrections from 6/7 (attached email) and completion of site – Should be done with a final site walk-through that can be scheduled with me directly [DONE]~~

1. Letter from Engineer of Record stating it was built per plan (with the change out of lined bioretention in lieu of planter) [Also add item from walk-through: The lower discharge pipe on the big dissipator ended up much closer to the end of the dissipator than per plan. Please have your Civil Engineer confirm the amount/length of dissipation is adequate.]
2. Civil Engineer to provide As-Built plan for site.
3. O&M Agreement needs to be recorded for the site (Provided by Civil Engineer, OK'd by County, and then signed by responsible party) – reminder that it can take us a few days to review these, please send me a final draft sent to me sooner rather than later – the last one I have is from March (attached), but it needs the later updates that we made to lots 9 and 10 made to this one as well reflecting the conversion of the site features to bioretention rather than planters.

Thanks,

Melody Eldridge

EXTERNAL: This email originated from outside SWCA. Please use caution when replying.

Here are Planning Requirements for Final of LOT 11:

SWCA sign off

1. Confirm Landscaping/Planting
2. Stabilized slopes
3. SWCA Fees – to be collected after SWCA Final sign off
4. All applicable conditions (fuel break, etc)

Camille:

5. Colors and Materials verification
6. WELO
 - a. Landscape Certification Form
 - b. Certification of Completion Form

Deed restrictions for Lot 11 have been completed.

Remaining Agencies: Planning, Drainage, Geo, Fire, Public Works

Thanks

Subject: RE: Highlands - Lot 11 - 88 Cowpens (BLD2016-00159)

Hi Christen –

Here's the final inspections for 88 Cowpens as they currently are reflected in our permit tracking system. Looks like Amanda at Sewer signed off on 7/20, but there are still quite a few others. For drainage, I need

1. Confirmation of drainage inspection corrections from 6/7 (attached email) and completion of site – Should be done with a final site walk-through that can be scheduled with me directly
2. Letter from Engineer of Record stating it was built per plan (with the change out of lined bioretention in lieu of planter)
3. Civil Engineer to provide As-Built plan for site.

4. O&M Agreement needs to be recorded for the site (Provided by Civil Engineer, OK'd by County, and then signed by responsible party) – reminder that it can take us a few days to review these, please send me a final draft sent to me sooner rather than later – the last one I have is from March (attached), but it needs the later updates that we made to lots 9 and 10 made to this one as well reflecting the conversion of the site features to bioretention rather than planters.

Thanks,

Melody Eldridge

Good morning!

Can you guys send me a screenshot of the agencies that still need to be signed off on this property? We're trying to get it finalized I'm the next week or two.

Thank you!

Christen for John
