Terminations, Revocations and Flashes

There were twenty-four (24) terminations during the reporting period. Seventy-one percent (71%) were successful.

Total # of Supervisees Successfully Terminated		Total # of Supervisees Unsuccessfully Terminated	
PRCS – 14	MS – 3	PRCS – 1	MS –6
<ul style="list-style-type: none"> • Early Terminations: 6 • Normal Terminations: 8 			

In the reporting period, we filed a total of forty-four (44) revocations, with PRCS having nineteen (19) and MS having twenty-five (25) revocations. The breakdown by violation category is below:

Violation Type	PRCS	MS	Percent of Violations
Property	1	6	16%
Drug/Alcohol	0	2	5%
Crimes Against Persons	8	3	25%
Technical	5	12	39%
Other Crimes	5	2	16%
TOTAL	19	25	100%

Generally, the population is reoffending by committing crimes similar to those for which they are on Realignment, namely non-serious, non-violent, non-serious sex related crimes.

Thirty-nine percent (39%) were for technical violations, a slight increase when compared to the previous quarter (33%). Technical violations of supervision are filed when supervisees abscond or fail to abstain from substance use. Sixty-one percent (61%) of the revocations filed were for new law violations involving crimes against persons, property and drug/alcohol related crimes.

There were twenty-two (22) flashes during this reporting period.

There was one (1) PRCS supervisee whose charges were reduced and subsequently terminated because of Prop 47. Three (3) cases were transferred to different counties.

Recidivism Definition

San Mateo County: Arrest and/or Charges Filed within 3 years of Last Incarceration in San Mateo County, including warrant arrests, PTA/Court Sentence but **excludes** PRCS flash incarcerations/Revocation, 647/849B1 (no charges filed) or dropped charges.

Attorney General: An arrest resulting in a charge within three years of an individual’s release from incarceration or placement on supervision for a previous criminal conviction

BSSC: A conviction of a new felony or misdemeanor committed within three years of release from custody or committed within three years of placement on supervision for a previous criminal conviction.

Service Connect HSA Dashboard

FY 15-16, Q3 (January 2016 – March 2016)

New Intakes

- There was a total of 86 new intakes for this quarter. This is 23% lower than the second quarter and 28% higher than the first quarter.
- Parolees continued to be referred, at the end of the third quarter there are a total of 11 parolees for the fiscal year.

Eligibility/Benefits

- Total applications received for the third quarter were 131, majority of which were for CalFresh which accounted for 44%, General Assistance (GA) accounted for 36%, and 21% were for MediCal benefits.
- Cases completed and approved during the third quarter totaled 60, of which 42 were for CalFresh, 18 were for MediCal, and none were approved for General Assistance. Most clients who applied for General Assistance opted to not pursue their applications, in lieu of a job opportunity offered under the 550 Jobs Program.

Employment Services

- There was an increase in overall job placement in the third quarter compared to the second quarter. Third quarter's placements of 75 was a 42% increase from the 53 placements in the second quarter.
- 550 Jobs had 36 placements in the third quarter, an 89% increase from the second quarter.
- Community employment in the third quarter was the highest thus far in the fiscal year at 38 placements, a 40% increase from the second quarter. The type of businesses that employed clients are as follows: food service, construction, automotive services, retail, transportation, customer service, maintenance, and shipping and receiving.

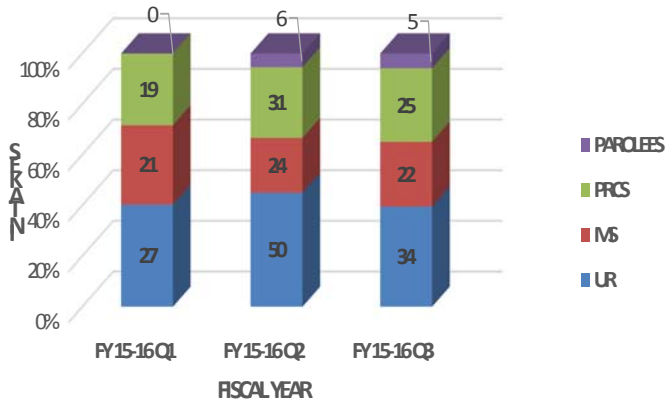

Services Provided

- Shelter remained the most requested service by clients. In the third quarter, 401 motel nights and 436 shelter bed nights were availed of by clients. For the first three quarters of the current fiscal year, use of motel and shelter beds totaled to 1,173 nights or an average of 130 nights a month.
- This quarter 196 monthly bus passes were issued to clients who were actively employed and engaged in services. A total of 1499 single use bus passes were distributed to clients, as transportation assistance is a highly requested support by clients.
- Service Connect issued 142 Safeway gift cards, 55 food totes, and 178 vouchers for clothing during the third quarter.

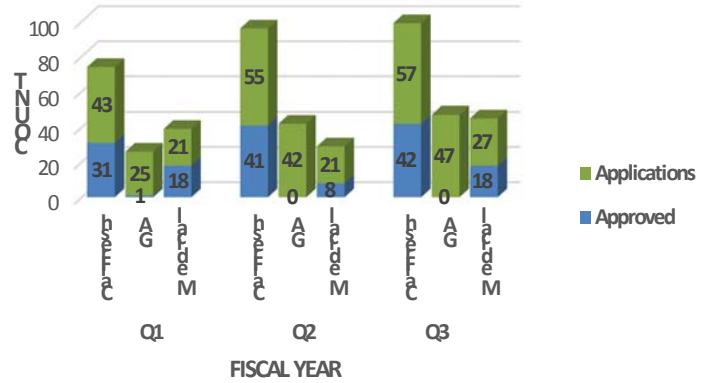

Peer Support/Groups

- By the end of the 3rd quarter, one New Moral Reconciliation therapy client remained in the program.
- During the period of January to March of 2016, a total of 11 support groups were held. For attendance, there were on average 4 clients per meeting. This is in line with the prior quarters that averaged 4 to 5 attendees per meeting.
- This quarter Peer Mentors served a total of 38 clients. For the fiscal year a total of 96 clients have been referred to Peer Mentors.

BHRS Service Connect Dashboard
FISCAL YEAR 2015 -2016 Q3 SUMMARY

Q3

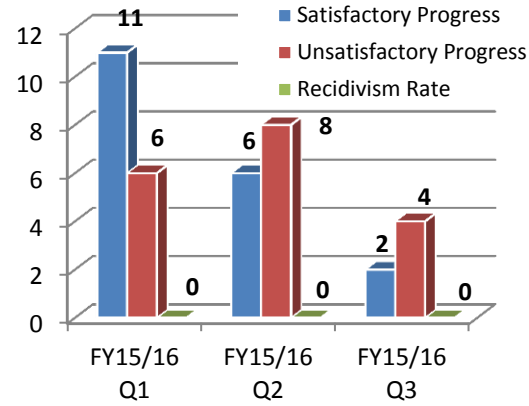

At-A-Glance: All Time BHRS Referred/Served/Number of Services

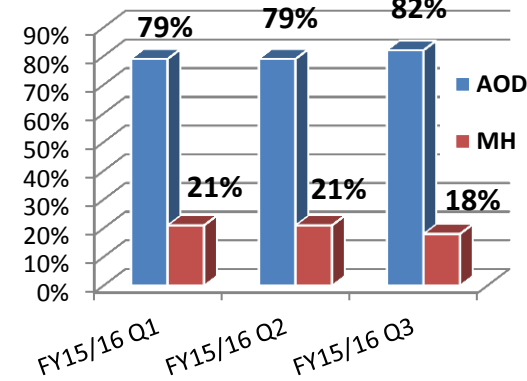

Open Cases w/ a Service

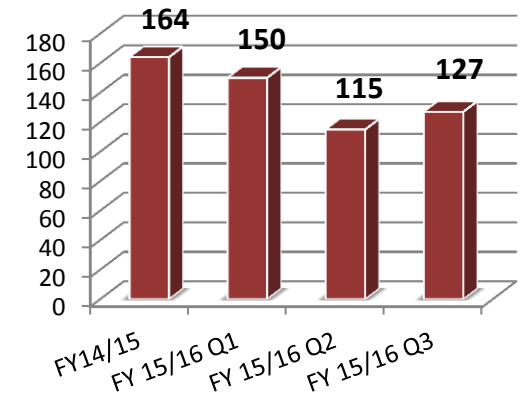

Progress and Impact on Recidivism

Clients by Treatment Plan Type

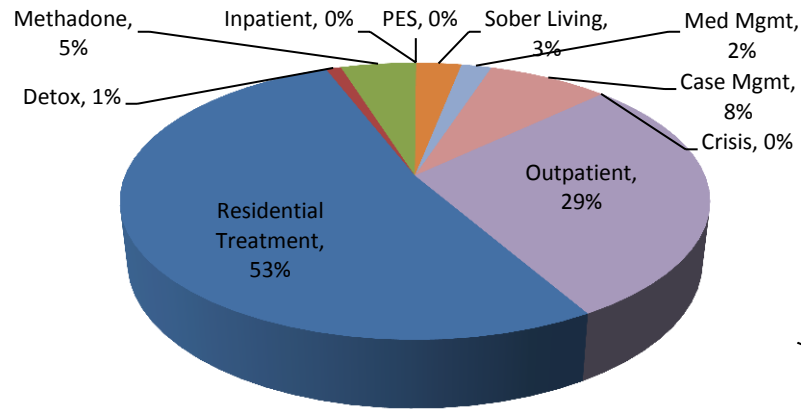

Engaged Participants (≥4 Services)

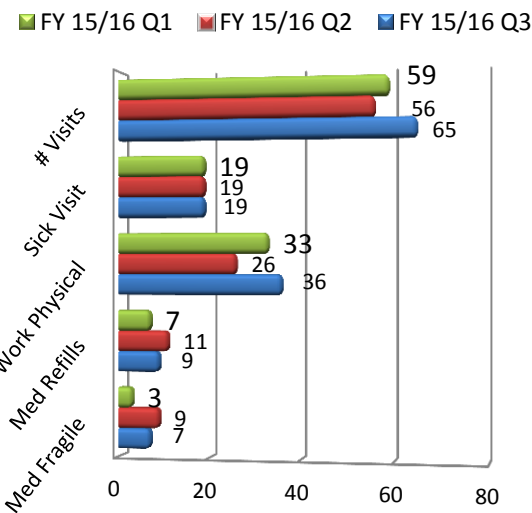

Services Provided by Service Connect Treatment Partners:

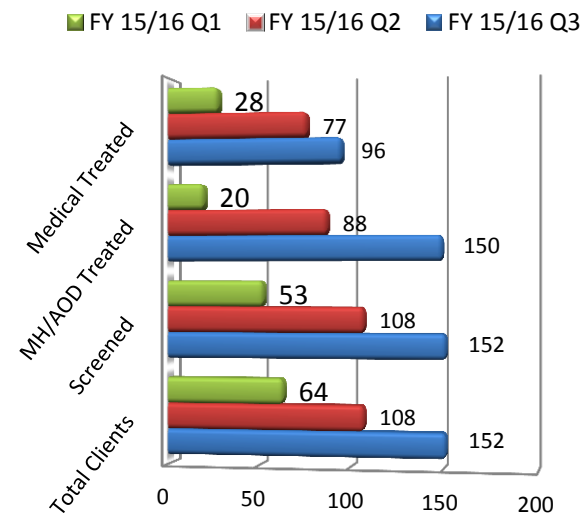

MH/AOD Services (Q3)

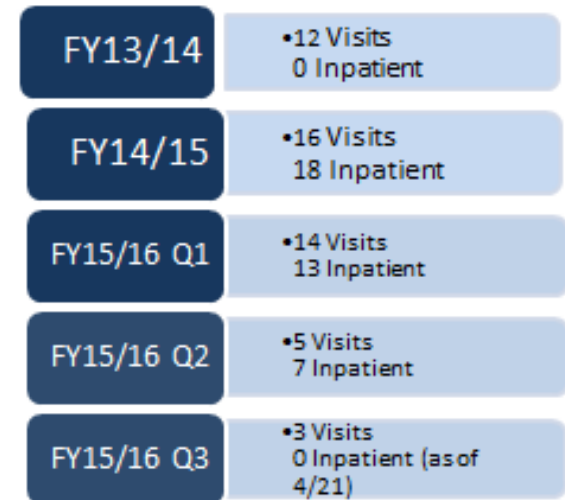

Mobile Health Van Services

Correctional Health Services

PES Services

AT-A-GLANCE: All Time Total BHRS Referred, Served, Number of Services, or Booking Encounter

The total number of participants referred to BHRS for treatment since the inception of the Service Connect is 1,432 and of these, 704 entered into treatment and/or recovery plans (these participants were served by BHRS and is a lower number because not all assessments result in treatment). Referred is defined as participants showing up for the first post-referral appointment and does not include those referred, but who did not follow through on the referral. This graphic also represents the total number of services (both mental health and substance use treatment) provided to participants between FY12/13 and the third quarter of FY 15/16. Service type detail for the third quarter is presented in the pie chart at the bottom of the dashboard. The number of services has generally grown as compared to previous years.

Service Connect Cases with a Service

This graph represents total Service Connect participants that received at least one BHRS service. The numbers do include participants that continued from year to year, so a participant could be counted more than once in each year if their case was open across multiple fiscal years. Therefore, this graph indicates the total open cases from the previous year for reference, the total open cases for the current year, and the newly open cases for the first three quarters of this fiscal year. Significant to historical growth was trending for FY 15/16 because the number of new participants in the first quarter exceeds the annual growth rate of new participants for all previous fiscal years and this dramatic growth rate continues.

Overall Progress and Impact on Recidivism

For those participants that have a treatment or recovery plan and exited the program in the second and third quarters, more than half have unsatisfactory progress towards completing their plan goals upon completion of the program, which is a shift as compared to the first quarter (reasons include discontinued treatment, moved out of area, re-incarcerated, or deceased). The current quarter reflects a decrease in the number of cases reported, which reflects a decrease in staffing due to leave. Recidivism in this instance indicates a discharge of a plan due to incarceration of the patient.

Percent of Participants with Substance Abuse Recovery Plan or a Mental Health Treatment Plan

This graph presents what percentage of Service Connect participants had a mental health treatment plan or a substance abuse recovery plan. Recovery plans are established at a rate of two to one as compared to a mental health treatment plan. Trends in the third quarter are consistent with the first quarter (Co-Occurring participants are not represented).

Engaged Participants with Four or More Services in a Year

“Engaged” is defined as a participant that has received four or more services. This means that the participant has returned to BHRS for multiple appointments regarding different services, which demonstrates that the participant is engaged in treatment because they actively participate. The current report generally reflects significant engagement and a dip in the Q2 due to the previously mentioned staff on leave.

Mental Health and Alcohol & Other Drugs Services Provided by Service Connect

This pie chart reports mental health and substance abuse treatment services provided by BHRS to Service Connect participants for the third quarter.

Mobile Health Van Services

This graph shows data for the first three quarters for Mobile Health. Notable changes for the third quarter are an increase in the total number of visits and work related physicals and a decrease in medically fragile cases and medication refills.

Correctional Health Services

Correctional Health data presents the total participants that flow through Correctional Health in each quarter, the number of participants screened, the number treated medically, for mental illness, and for substance abuse. Correctional Health has experienced large growth across the first three quarters.

Service Connect Cases with PES Counts

A Psychiatric Emergency Services (PES) count is when a Service Connect participant has presented themselves at PES. Those participants that were not admitted are shown as a “visit” and those admitted are shown as “inpatient.” Involvement with PES is only counted if enrolled in Service Connect, counts do not include episodes when subject was not a participant in Service Connect (the Q1 report did count such episodes). Visits have generally remained steady. However, due to a lag in the data entry proces, Q3 counts will be validated when the next report is produced in July 2016.
